Laurie Weishar

A Digital Shoebox is a 5 Star in my books. My equipment is fantastic and saves me so much time. It makes it much easier to expand my business and serve my clients. I have not found anything that can even come close to this equipment as far as cost, efficiency and quality goes. The best part about A Digital Shoebox is Sim, the owner. He has been so helpful anytime I have had an issue and he has dealt with me personally every single time. Although I haven't needed him often (which is a great thing), when I do, he is right there to help me resolve the issue.

Motophoto

One of the Best purchases we have made to date. We love our SlideSnapPro. We have several empty carriers on hand and fill them while the others scan. What a time saver. Excellent image capture. Wonderful editing software included. Makes for easy inverts and flips. We paid for the unit with one order. The man hours are reduced dramatically with this unit. We love it.

Joel Potter

After 7000+ successful snaps, I'm very very pleased with the purchase! Plus the whole setup looks very cool on the desk! If you have a significant volume of slides, the pro unit is so worth the investment.

David Goodall

I have been scanning slides since 2000. As the technology got better, I brought up my resolution. Needless to say, the process for scanning each slide took forever and the file size was tremendous. I always thought an optical zoom would be a lot better than a digital zoom but I could not figure out how to consistently get a good result. Your product has turned my process around to where my time is now available to consistently tag and label. Thank you!!!

David Goodall

Daniel Moore

A truly innovative device, produces fantastic results to truly replicate the image on the slide, means my business can take more orders and complete them at a faster rate, couldn't do business without it now - brilliant support from Sim and the team really the best investment I could have made for my business.

Nate Williams

We purchased a SlideSnap PRO in the fall of 2015 and couldn't be more pleased. We've been using Nikon Coolscan 9000s for years and finally found a worthy replacement for slide scanning. Coupled with a Nikon D750 and a macro lens the results are superb. The online documentation and support is great. The included software is a nice added bonus and gets you started right away.

Jim is n his late 80's with moderate Parkinson's. He owned a camera store for many years and was a professional photographer. Since Jim received the SlideSnap last year from my husband, he has single-handily converted close to 20,000 slides onto his computer.
My mom takes great pleasure in dumping the old slides as they used to occupy 3/4 of one their spare rooms in the house. Jim takes great care in dusting and inspecting each and every slide before he places them in the carousel to be downloaded into digital form. This has been a blessing in so many ways. This "project" has kept Jim busy and active. It is pleasurable for him to take a trip down memory lane and re-visit all the places he and my mom traveled around the world. They also put in over 200,000 miles in their RV seeing and photographing the sites in the United States and Canada. Jim has also had some of his photos published in National Geographic Magazine, related to Caving.

I cannot express to you how much this means to not just Jim but our entire family. Now I will be able to go through the pictures with ease and make a memorable photo-book for them to place on their coffee table. As you can imagine there are a lot of outstanding photos.

I wanted to let you know about Jim and his successes with your product. I believe Jim would be a great interest story and testament to the ease of your product for your website and or advertising. Since his neighbors and friends have found Jim's new passion they are asking him if he could convert their slides for them. Just when he thought he was officially retired, looks like he just might be making a little money on side.

With Gratitude, Kathy Sloan[/vc_column_text][vc_empty_space height="24px"][/vc_column][/vc_row]
